

Where do I see reported alerts?

The main page on Bird Alarm - "Sightings"- displays incoming alerts. The alerts are indicated by markers on the map and are listed below. Click on an alert in the list to see detailed information about the observation. The map can be displayed in map view or satellite view. Click on one of the red pins on the map to get some information about the observation.

You do not have access to the same functions and information when you are logged in or out.

When you are logged out

- You cannot see the alerts sent today or yesterday.
- You cannot choose which observations to display (all the sightings are shown).
- You cannot see the rarity of the bird.

The screenshot shows the Bird Alarm website interface. At the top, there is a navigation bar with a bird logo, links for "Sightings", "FAQ", and "Help", and a "Sign in" button with flags for various countries. Below the navigation bar is a section titled "Earlier sightings" with a question mark icon. This section contains a map of Europe with several red pins indicating sighting locations. Below the map is a table listing sightings for 7/8/2018. The table has columns for the bird species, location, and time. To the right of the table is a detailed view of a sighting for a Caspian Tern in Hovedstaden, Denmark, on 7/8/2018 at 8:14 PM. This view includes a small map of the location, a list of details such as quantity (1), circumstance (Seen Stationary), trustworthiness (Under observation - confirmed), plumage (N/A), condition (N/A), last updated (7/8/2018 8:16 PM), last seen (7/8/2018 8:14 PM), additional comments (Fouragerende på dette sene tidspunkt), reported by (KarstenBuskLaursen from DQF), location (GPS) (Kongelundsdal, Drager Kommune, Hovedstaden, Denmark), and sites (Del IV Klydesø, nye vandflade, Vestamager).

When you are logged in

- You can see the most recent sightings, as well as the rarity of the birds.
- You can choose which observations to display.

There are two ways to select sightings.

The screenshot shows the top navigation bar with a bird logo, menu items (Sightings, Profiles, Shop, About, Support, Account (Name), Log off), and flags for the UK, Sweden, Denmark, Finland, and France. Below the navigation bar are two search panels. The 'Quick Search' panel on the left has tabs for 'Today', 'Yesterday', and 'Earlier', a 'Choose profile' dropdown set to 'All sightings', and date fields for 'From' (2018-07-09) and 'To' (2018-07-10). The 'Advanced Search' panel on the right has 'From' (2018-07-09) and 'To' (2018-07-10) date fields, 'Reported By' (All clubs), 'Rarities Of' (Your Club), 'Species' (All Species), and 'Rarity' (All rarities) dropdowns, and a 'Location' text field with the example 'e.g. London, United Kingdom'.

Quick search:

select a profile and whether you want the selection to apply to today's, yesterday's or earlier sightings. You may also specify a given time frame.

Advanced search: specify a time frame, location, species and/or rarities you are interested in. You can also choose to show the alerts sent by members of a given club or according to the rarity scale of any club (even other than yours).

In the menu Sightings, click on "My sightings to see the list of sightings you have sent.

The screenshot shows the top navigation bar with the bird logo, menu items (Sightings, Blog, Profiles, Shop, About, Support, Account (Chloé), Log off), and flags for the UK, Sweden, Denmark, Finland, and France. Below the navigation bar is a horizontal menu with four items: 'All sightings', 'My sightings' (highlighted in orange), 'Statistics', and 'Reports'.

Finally, you can create information about the alerts in the system under the sub-menu “Statistics” Click on “Statistics” to see general information about the number (and/or list) of the alerts, species and locations you have reported. You may also see statistics relative to your friends’ activity. Note that if you do not wish your statistics to be visible for your friends, you have the option to hide your information. This is done under the menu Account > Settings.
